

# MR SQUIGGLE

## OBJECTIVE

Breakout your creative flair and expert communication skills to perfectly re-create the chosen image.

## HOW IT WORKS

1. Within your team nominate one person to be the drawer.
2. Give the drawer a whiteboard and whiteboard marker and ask them to sit away from the rest of the team.
3. Give each of the other team members (the describers) one piece of the picture that is to be drawn (see next pages).
4. One describer at a time, the team needs to instruct the drawer to draw what the describer can see in their piece of the picture.
5. This is repeated until each describer has had their turn. If there are more pieces than describers, each describer will describe multiple pieces.
6. Once each of the pieces has been described to the drawer, the drawer will reveal their work of art.

## AND THE WINNER IS...

The team that has the most accurate imitation of the original image.

# MR SQUIGGLE

## EQUIPMENT (PER TEAM)

- 1 x Whiteboard
- 1 x Whiteboard Marker
- 1 x Eraser
- 1 x Printed image (see next page) cut into pieces

## RULES

- You can only describe what you can see. You CAN NOT put all the pieces of the picture together and tell the drawer what the completed image is.
- Have a larger team? No problem! Double up team members per picture piece and let them take turns describing.

## VARIATION

Turn this game virtual by using the whiteboard feature on Zoom! Send each team member their piece of the puzzle and allocate a drawer. Put the group on mute with only one person describing their piece of the image at one time. From here, complete steps 4, 5 & 6 in 'How It Works' to complete the activity.

## SHARE IT WITH US

We would love to see your finished works of art! Share your final creations with us by tagging Corporate Challenge Events and #positiveteamculture
